

RTT CU TR 010/2011 Machinery Safety accreditation scope

Certification:

- ✓ Household woodworking machines
- ✓ Garage equipment for motor vehicles and trailers
- ✓ Agricultural machinery
- ✓ Mechanized tools for garden and forest, including electric
- ✓ Mechanized tools, including electric
- ✓ Chainsaws, electric chainsaws
- ✓ Technological machinery and equipment for trading enterprises, public catering and nutrition units
- ✓ Ventilation and dust control equipment: mine fans; equipment for dust catching and dust-depressing; oxygen compressors

Declaration:

- ✓ Turbines
- ✓ Diesel generators
- ✓ Conveyor, production lines
- ✓ Crushers
- ✓ Electric wire rope hoist and chain hoist
- ✓ Chemical equipment, oil and gas processing equipment
- ✓ Equipment for the processing of polymeric materials
- ✓ Pumping equipment (pumps, pumping units)
- ✓ Cryogenic equipment, compressors, refrigeration equipment, acetylene equipment, gas-cleaning equipment: air-fractionating and rare gases equipment; equipment for the preparation and purification of gases and liquids, equipment heat- and mass transfer of cryogenic systems; compressors (air and gas); refrigeration equipment
- ✓ Equipment for gas-flame machining and metallization
- ✓ Gas-cleaning and dust-collecting equipment
- ✓ Pulp and paper equipment
- ✓ Processing equipment and apparatus for applying paint-and-lacquer coating to engineering products
- ✓ Equipment for the preparation and purification of drinking water
- ✓ Metal-working machines, metal processing machines
- ✓ Woodworking machinery (except household woodworking machines)
- ✓ Technological equipment for the foundry industry
- ✓ Equipment for welding and gas-thermal coating
- ✓ Road Machinery and equipment for the preparation of mortars
- ✓ The equipment for the building materials industry
- ✓ Construction machinery and equipment
- ✓ Industrial laundry equipment
- ✓ The equipment for dry-cleaning and dyeing of clothing and household products
- ✓ Machinery and equipment for communal services
- ✓ Industrial ventilators

- ✓ Industrial conditioners
- ✓ Air heaters and air coolers
- ✓ Technological equipment for light industry (except spare parts)
- ✓ Technological equipment for the textile industry
- ✓ Technological equipment for production of chemical fibers, glass fibers and asbestos yarns
- ✓ Technological equipment for the food, dairy and meat and fish industries
- ✓ Technological equipment for flour-and-cereals, provender and grain elevator industries; mineral fertilizers and chemical poisons industries
- ✓ Technological machinery and equipment for trading enterprises, public catering and nutrition units
- ✓ Printing equipment
- ✓ Technological equipment for glass, porcelain, faience and cable industry
- ✓ Heating boilers running on liquid and solid fuel
- ✓ Water heating and heating apparatus, liquid fuel and solid fuel
- ✓ Sylphon bellows
- ✓ Industrial pipe fitting, industrial pipeline valves
- ✓ Cutting mills
- ✓ Cutters
- ✓ Circular disk saws, carbide-tipped, for work with wood
- ✓ Hand tools with insulating handles for work with electrical installations up to 1000 V
- ✓ Tools of natural and synthetic diamonds: diamond grinding wheels, diamond cutting disks. Tools of synthetic Superhard materials based on boron nitride (CBN tool). Abrasive tools, grinding tools, abrasive materials
